

## «Strolling in Waves»

Witness the creation of the **largest Asphalt Art Installation** in Switzerland!

**VIBR**, the Association for the Rümelinsplatz Revitalization, is having the «Y» consisting of Schnabelgasse, Münzgasse and Rümelinsplatz painted in bright colors.

Official start: April 8, 2024

Work to be completed: May 31, 2024, weather permitting

Public Opening: May 31, 2024, at 6 pm  
outside the Restaurant Schnabel

Processes to watch: Measuring, carving outlines, masking, painting

Funded by: **VIBR**, numerous businesses and individuals granting both financial support and expertise, and the City of Basel Revitalization Fund

### Get ready for some real color!

After the 2025 carnival, this entire "Y" perimeter will be completely renovated. But before that happens, our association is taking advantage of this once in a lifetime opportunity to transform this historic triangle in a truly unique way.

Observe apprentices and senior staff while they work to present you with a completely new experience: "Color surfing". Go ahead, stroll through the completed segments!

With her entry for this project, Sarah Dietrich won a juried competition among first year students at the Basel Design School; her title "**STROLLING IN WAVES**" is also a reference to the historic Rümelin creek previously running a mill on Rümelinsplatz.

**VIBR** not only proudly initiated and now manages this lively and colorful art attraction to the "Y", but we also hope to bring some cheerfulness to businesses and residents to help 'prepare' for the upcoming renovation work, making the inconveniences more bearable.

For us, it is particularly important to provide a unique platform for the appreciation of the work to all involved aspiring arts and trades professionals participating in this installation, integrating them into this largest asphalt artwork in Switzerland .

How many design students, geomatics or painter apprentices are given the opportunity to be actively involved in something so unique and expansive!
